

APPRENTICE PROGRAM

KICK OFF YOUR CAREER IN CONSTRUCTION WITH AN APPRENTICESHIP AT ADCO

At ADCO Constructions, we invest in our people and watch them grow.

We have developed an industry-leading Apprentice program that equips candidates with the skills to build a successful, ongoing career in construction while completing their studies.

Our Story

A force in Australian construction – guided by family values, trust and putting people first.

The ADCO story began back in 1972. In the years since then, we've grown to be a multi-billion-dollar construction business guided by an unwavering commitment to quality, our clients, and our people. These foundations have seen us become one of the top private companies in Australia with a blue-chip client list and an award-winning portfolio of almost 4,000 successfully completed buildings from early work packages to \$300+ million projects.

WHY JOIN ADCO AS AN APPRENTICE?

Our people are our driving force and what makes us different.

Our 2-3 year program will equip you to develop your skills and competencies, giving you experience to move onto supervisory and management roles.

We have partnered with Group Training Organisations to support you in ensuring you meet the requirements of your assessments.

We'll provide successful candidates with:

- The opportunity to develop your skills on high-profile projects
- Exposure to a variety of construction practices to ensure you develop a well rounded skillset
- A personal mentor and national sponsor throughout the program for guidance and support
- Structured training modules and development opportunities, as well as on-site experience
- Quarterly networking events with other apprentices
- Apprentice networking and learning events, where you will visit a high-profile project in one of our states, network with other apprentices from across the country, meet with the national leadership team, and participate in seminars.
- Great opportunities for ongoing employment with ADCO

ABOUT YOU

We're inviting applications from individuals who are switched on, who are capable problem solvers, who can work effectively with others and who enjoy a challenge.

You're an attentive listener and a quick learner who can take initiative. You take pride in your work and safety is your number one priority. You also have a knack for working with tools.

If this is you, we'd love to hear from you.
